DETAILED ACTION

Election/Restrictions

1. Claims 1, 9, and 10 are allowable. The restriction requirement between Species A-E, as set forth in the Office action mailed on 10/18/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 3 and 4, directed to Species A-E are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claim 25, directed to Species E is withdrawn from consideration because it does not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application is in condition for allowance except for the presence of claim 24 directed to Species E non-elected without traverse. Accordingly, claim 25 has been cancelled.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The claims are patentable over the prior art of record, because the teachings of the references taken as a whole, do not show or render obvious the combination set forth in claim 1 the arm part having a through-hole in the opening of the tail-cord duct, and a governor rope arranged in the opening of the tail-cord duct so as to extend along the elevating space, the governor rope passing through the through-hole of the arm part; and claim 9 and 10 the supporting member having a through-hole, a governor rope arranged so as to pass through the through-hole, and the governor rope and the through hole are arranged in the opening formed in the structure for supporting the passenger car.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Pico whose telephone number is 571-272-5589.
